Subject: Ordinance Granting Petition of Grand Bay at Doral Community Development District to
Contract the Boundaries of the District Established by Ordinance No. 06 -153

Recommendation

It is recommended that the Board of County Commissioners (Board) adopt the attached Ordinance contracting the boundaries of the Grand Bay at Doral Community Development District (CDD). This proposed district lies wholly within the City of Doral (the City) and will be contracted from 341.41 acres to 337.41 acres pursuant to the authority granted by the Miami-Dade County Home Rule Charter for the purposes set forth in Chapter 190 of the Florida Statutes.

Scope

This CDD is located within District 12, represented by Commissioner Jose "Pepe" Diaz, and will provide funding for capital improvements, as well as multipurpose maintenance functions within the CDD. The area of contraction within the CDD boundaries will encompass a proposed public school.

Fiscal Impact/Funding Source

Contraction of the boundaries of the Grand Bay at Doral CDD will have no fiscal impact to Miami-Dade County (the County). CDD funding is provided by private CDD liens and assessments against affected property and may be collected privately or through the annual Combined Real Property tax bill pursuant to an interlocal agreement with the County. Adoption of this Ordinance will not affect the CDD assessments of the individual owners within the original CDD boundaries.

Social Equity Statement

If approved, property owners within this CDD will pay special assessments appropriately apportioned according to the special benefit they receive from the CDD's services, regardless of their demographics or income levels.

Track Record/Monitor

A special taxing district has been created to maintain this development's infrastructure and open common areas should the Homeowners Association or CDD be dissolved or fails to fulfill its maintenance obligations. The special taxing district will remain dormant until such time as the County determines to implement it. Upon adoption of the attached Ordinance, the boundaries of the existing special taxing district will not be affected.

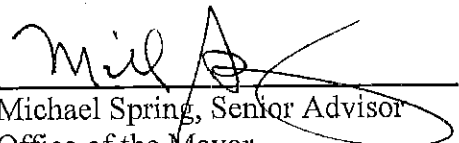

Background

The Grand Bay at Doral CDD was created by the Board on October 24, 2006, pursuant to Ordinance No. 06-153 and amended by Ordinance No. 08-12, which was adopted on February 5, 2008. The CDD further expanded the boundaries at the BCC public hearing on April 19, 2016, adopted under Ordinance 16-39. This CDD encompasses 341.41 acres with approximately \$113.177 million in infrastructure costs

servicing 4,030 residential units. Upon adoption of the attached Ordinance, the Grand Bay at Doral CDD will be reduced by 4 acres encompassing a total of 337.41 acres.

Upon BCC approval of the Ordinance attached, a release of the declaration of restrictive covenants for the contracted area will be submitted by the CDD Board consistent with the requirements of Resolution R-413-05 adopted by the Board on April 5, 2005, and as amended by Resolution No. R-883-06, and adopted on July 18, 2006, to add language regarding the option to pay capital assessments in full at time of closing. The restrictive covenant provides for notice in the public records of the projected taxes and assessments to be levied by the CDD, individual prior notice to the initial purchaser of a residential lot or unit within the development and provisions for remedial options to initial purchasers whose contract for sale did not include timely notice of the existence and extent of CDD liens and special assessments.

The BCC is authorized by the Florida Constitution and the Miami-Dade County Home Rule Charter to establish and expand/contract governmental units such as this CDD within the County and to prescribe such government's jurisdiction and powers.

PETITION TO CONTRACT GRAND BAY AT DORAL
COMMUNITY DEVELOPMENT DISTRICT

Dated: MARCH 31, 2016

**BOARD OF COUNTY COMMISSIONERS
MIAMI-DADE COUNTY, FLORIDA**

**IN RE: PETITION PURSUANT TO
SECTION 190.046(1), FLORIDA STATUTES,
TO CONTRACT THE BOUNDARIES
OF GRAND BAY AT DORAL COMMUNITY
DEVELOPMENT DISTRICT**

**PETITION TO CONTRACT THE BOUNDARIES OF GRAND BAY AT DORAL
COMMUNITY DEVELOPMENT DISTRICT**

The Board of Supervisors (the "Board") of the Grand Bay at Doral Community Development District, an independent special district established pursuant to Chapter 190, Florida Statutes (the "District"), and the Miami-Dade County Home Rule Charter by Ordinance No. 06-153 of Miami-Dade County, Florida (the "County"), adopted on October 24, 2006, as amended by Ordinance No. 08-12 of the County adopted on February 5, 2008 (collectively, the "Ordinance"), hereby petitions the **BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA** (the "Commission"), in accordance with Section 190.046(1) of the Uniform Community Development Act of 1980, Chapter 190, Florida Statutes (the "Act"), to contract the current boundaries of the District and in support thereof, hereby attests as follows:

1. That approximately 334.48 +/- acres are currently located within the external boundaries of the District.¹

¹ A Petition to Expand the Boundaries of Grand Bay at Doral Community Development District was submitted to Miami-Dade County and is pending approval by the Miami-Dade County Commission (the "Expansion Petition"). The City of Doral adopted Resolution No. 14-191, expressing its support for the Petition to Expand the Boundaries of the District. The aforesaid Petition seeks to expand the current boundaries of the District by 6.93 +/- acres.

2. That the Board desires to contract the boundaries of the District and remove approximately 4.00 +/- acres of property from the District boundaries (the "Contraction Parcel"). The metes and bounds description of the Contraction Parcel is attached hereto as Exhibit 1. Following such amendment of the District's boundaries, all other lands in the District will continue to be located wholly within the jurisdictional boundaries of the City of Doral, Florida. The metes and bounds description of the proposed amended District boundaries is attached hereto and made a part hereof as Exhibit 2.²

3. That the real property to be removed from the current boundaries of the District will not be a part of the community being developed within the District boundaries, will receive no special benefit from infrastructure improvements that may be funded by the District, and will not be assessed by the District. There are currently no services that are being provided by the District in the area to be removed from the boundaries of the District. No special assessments have been levied against the real property being removed from the boundaries of the District.

4. That Flordade, LLC, a Florida limited liability company, is the owner of the lands comprising the Contraction Parcel (the "Landowner"). Attached hereto as Exhibit 3 and made a part hereof is the written consent of the Landowner to the removal of the Contraction Parcel from the District. The favorable action of the Board authorizing the filing of this Petition, as is evidenced by the copy of District Resolution No. 2015-08 attached hereto as Exhibit 4, constitutes consent for all the landowners within the District pursuant to Section 190.046(1)(g), Florida Statutes.

5. That attached hereto as Exhibit 5 and made a part hereof is a designation of the future general distribution, location, and extent of public and private uses of land proposed for

² This metes and bounds description includes the lands described in Expansion Petition.

the area to be excluded from the District by the future land use plan element of the effective local government comprehensive plan. Contraction of the District in the manner proposed in this Petition is not inconsistent with the adopted local government comprehensive plan.

6. That annexed hereto as Exhibit 6 and made a part hereof is a statement of estimated regulatory costs in accordance with the requirements of Section 120.541, Florida Statutes.

7. That annexed hereto as Exhibit 7 is a copy of a Resolution of the City Council of the City of Doral, Florida, expressing its support for the contraction of the boundaries of the District.

8. That following the proposed contraction of the District's boundaries (i) the contraction of the District boundaries will not be inconsistent with any applicable element or portion of the state comprehensive plan or of the effective local government comprehensive plan; (ii) the area of land comprising the District will be of sufficient size, compactness, and contiguity to be developable as one functional interrelated community; (iii) the District will continue to present the best alternative available for delivering the community development facilities and services to the area that will be served by the District; (iv) the community development facilities and services of the District will not be incompatible with the capacity and uses of existing local and regional community development services and facilities; and (v) the area comprising the District will be amenable to separate special-purpose government.

9. That all statements contained within this Petition are true and correct.

WHEREFORE, Petitioner, the Board of Supervisors of the Grand Bay at Doral Community Development District, hereby respectfully requests the Commission to:

A. Direct its staff to notice, as soon as practicable, a local public non-emergency hearing pursuant to the requirements of Section 190.046(1)(b) of the Act to consider whether to grant the petition for the contraction of the District's boundaries and to amend the Ordinance establishing the District to reflect the new boundaries of the District.

B. Grant this Petition and enact an ordinance pursuant to applicable law amending the Ordinance establishing the District to reflect the new boundaries of the District.

STATEMENT OF ESTIMATED REGULATORY COSTS GRAND BAY AT DORAL CONTRACTION OF BOUNDARIES

1.0 Introduction

1.1 Purpose and Scope

This Statement of Estimated Regulatory Costs ("SERC") supports the petition to contract the boundaries of the Grand Bay at Doral Community Development District ("District"). The District currently comprises approximately 334.48 +/- acres of land located in the City of Doral, Florida.¹ This SERC is specific for one (1) area to be removed; the new school site consisting of approximately 4.00 +/- acres.

The limitations on the scope of this SERC are explicitly set out in Section 190.002(2) (d), Florida Statutes ("F.S.") governing District establishment) as follows:

"That the process of establishing such a district pursuant to uniform general law shall be fair and based only on factors material to managing and financing the service delivery function of the district, so that any matter concerning permitting or planning of the development is not material or relevant (emphasis added)."

1.2 Overview of Grand Bay at Doral Community Development District

The District is designed to provide district infrastructure, services, and facilities along with their operations and maintenance to a master planned residential development. The proposed area of removal will not be used for development of residential units and will not be a part of the residential community being developed within the District.

1.3 Requirements for Statement of Estimated Regulatory Costs

Section 120.541(2), defines the elements a statement of estimated regulatory costs must contain:

(a) An economic analysis showing whether the ordinance directly or indirectly;

1. Is likely to have an adverse impact on economic growth, private sector job creation or employment or private sector investment in excess of \$1 million in aggregate within 5 years after the implementation of the ordinance;

¹ A Petition to Expand the Boundaries of Grand Bay at Doral Community Development District was submitted to Miami-Dade County and is pending approval by the Miami-Dade County Commission (the "Expansion Petition"). The City of Doral adopted Resolution No.14-191, expressing its support for the Petition to Expand the Boundaries of the District. The aforesaid Petition seeks to expand the current boundaries of the District by 6.93 +/- acres.

2. Is likely to have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with person doing business in other states or domestic markets, productivity, or innovation in excess of \$1 million in the aggregate within 5 years after the implementation of the ordinance; or

3. Is likely to increase regulatory costs, including any transactional costs in excess of \$1 million in the aggregate within 5 years after the implementation of the ordinance.

(b) A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the ordinance.

(c) A good faith estimate of the cost to the agency, and to any other state and local government entities, of implementing and enforcing the proposed ordinance, and any anticipated effect on state and local revenues.

(d) A good faith estimate of the transactional costs likely to be incurred by individuals and entities, including local governmental entities, required to comply with the requirements of the proposed ordinance. As used in this paragraph, "transactional costs" are direct costs that are readily ascertainable based upon standard business practices, and include filing fees, the cost of obtaining a license, the cost of equipment required to be installed or used or procedures required to be employed in complying with the ordinance, additional operating costs incurred, and the cost of monitoring and reporting.

(e) An analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined by Section 120.52, F.S. Miami-Dade County is not defined as a small County for purposes of this requirement.

(f) Any additional information that the agency determines may be useful.

(g) In the statement or revised statement, whichever applies, a description of any good faith written proposal submitted under paragraph (1) (a) and either a statement adopting the alternative or a statement of the reasons for rejecting the alternative in favor of the proposed ordinance.

2.0 Adverse impact on economic growth, business competitiveness or increased regulatory costs, in excess of \$1 million.

It is unlikely the boundary amendment will meet any of the triggers in Section 120.541(2)(a). The basis for this determination is provided in the discussions in Section 3.0 through Section 6.0.

3.0 A good faith estimate of the number of individuals and entities likely to be required to comply with the ordinance, together with a general description of the types of individuals likely to be affected by the ordinance.

The District currently serves land that comprises a 334.48 +/- acre development. Upon approval of the Petition to contract the boundaries (and the Expansion Petition), the District's boundaries will comprise approximately 337.41 +/- acres. This boundary amendment will remove one (1) parcel of land from the District boundary which will not be used for the development of residential units and will not be a part of the residential community being developed in the District.

4.0 A good faith estimate of the cost to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state or local revenues.

There is no state agency promulgating any rule relating to this project that is anticipated to affect state or local revenues.

4.1 Costs to Governmental Agencies of Implementing and Enforcing Ordinance

State Governmental Entities

Since the District already exists, there will be no additional ongoing costs to various State governmental entities to implement and enforce the proposed boundary amendment. Further, the District comprises less than 1,000 acres, and therefore, Miami-Dade County is the establishing entity under 190.005(2), Florida Statutes, to review and act upon the petition to contract the boundaries of the District.

There are minimal additional ongoing costs to various State entities to implement and enforce the proposed ordinance. The District is a special purpose unit of local government, and it is required to file various reports to the State of Florida, the Department of Economic Opportunity and other agencies of the State. The filing requirements are outlined in Appendix A. However, the additional costs to the State and its various departments to process the additional filing from the District are very low, since the State routinely processes filings from over 500 similar districts. Finally, the filing fees paid by the District are designed to offset any additional costs to the State.

Miami-Dade County and City of Doral

There will be only modest costs to the County and City for a number of reasons. First, review of the petition to contract the boundaries of the District does not include analysis of the project itself. Second, the petition itself provides much of the information needed for a staff review. Third, the County already possesses the staff needed to conduct the review without the need for new staff. Fourth, there is no capital required to review the petition. Finally, the County routinely process similar petitions though for entirely

different subjects, for land uses and zoning changes that are far more complex than is the petition to contract an existing community development district.

The annual costs to Miami-Dade County, because of the proposed contraction of the boundaries of the District, are also very small. The District is an independent unit of local government. The only annual costs the County faces are the minimal costs of receiving and reviewing the various reports that the District is required to provide to the County, or any monitoring expenses the County may incur if it establishes a monitoring program for this District. The County may incur certain advertising costs associated with the processing of the Petition to Contract the District Boundaries. The Petitioner has paid a fee with this submittal to offset any expenses the County may incur in the processing of this Petition.

4.2 Impact on State and Local Revenues

Adoption of the proposed ordinance will have no negative impact on state or local revenues. The District is an independent unit of local government. It is designed to provide infrastructure facilities and services to serve the development project and it has its own sources of revenue. No state or local subsidies are required or expected.

In this regard it is important to note that any debt obligations incurred by the District to construct its infrastructure, or for any other reason, are not debts of the State of Florida or any other units of local government, except the District. In accordance with State law, debts of the District are strictly its own responsibility.

5.0 A good faith estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the ordinance.

Transactional costs associated with community development district (CDDs) are typically related to the financing and maintenance of infrastructure. When the petition to form the District was originally submitted and approved by the City, the petitioner estimated the design and development costs for providing capital facilities. In this case the District Board made the determination that the parcel being removed from the District will not benefit from the District's infrastructure project and there are no assessments for debt imposed on the parcels.

6.0 An analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined by Section 120.52, F.S.

There will be no impact on small businesses because of the proposed contraction of the boundaries of the District.

The development is located in the City of Doral. As of the Census date, the 2000 Census, the City has a population that is greater than 10,000 people. Therefore, the City is not defined as a "small" City according to Section 120.52, Florida Statutes, and there will

accordingly be no impact on a small City because of the proposed amendment of the boundaries of the District.

7.0 Any additional useful information.

The analysis provided above is based on a straightforward application of economic theory, especially as it relates to tracking the incidence of regulatory costs and benefits.

8. That following the proposed contraction of the District's boundaries (i) the contraction of the District boundaries will not be inconsistent with any applicable element or portion of the state comprehensive plan or of the effective local government comprehensive plan; (ii) the area of land comprising the District will be of sufficient size, compactness, and contiguity to be developable as one functional interrelated community; (iii) the District will continue to present the best alternative available for delivering the community development facilities and services to the area that will be served by the District; (iv) the community development facilities and services of the District will not be incompatible with the capacity and uses of existing local and regional community development services and facilities; and (v) the area comprising the District will be amenable to separate special-purpose government.

STATEMENT OF ESTIMATED REGULATORY COSTS GRAND BAY AT DORAL CONTRACTION OF BOUNDARIES

1.0 Introduction

1.1 Purpose and Scope

This Statement of Estimated Regulatory Costs ("SERC") supports the petition to contract the boundaries of the Grand Bay at Doral Community Development District ("District"). The District currently comprises approximately 334.48 +/- acres of land located in the City of Doral, Florida.¹ This SERC is specific for one (1) area to be removed; the new school site consisting of approximately 4.00 +/- acres.

The limitations on the scope of this SERC are explicitly set out in Section 190.002(2) (d), Florida Statutes ("F.S.") governing District establishment) as follows:

"That the process of establishing such a district pursuant to uniform general law shall be fair and based only on factors material to managing and financing the service delivery function of the district, so that any matter concerning permitting or planning of the development is not material or relevant (emphasis added)."

1.2 Overview of Grand Bay at Doral Community Development District

The District is designed to provide district infrastructure, services, and facilities along with their operations and maintenance to a master planned residential development. The proposed area of removal will not be used for development of residential units and will not be a part of the residential community being developed within the District.

1.3 Requirements for Statement of Estimated Regulatory Costs

Section 120.541(2), defines the elements a statement of estimated regulatory costs must contain:

(a) An economic analysis showing whether the rule directly or indirectly;

1. Is likely to have an adverse impact on economic growth, private sector job creation or employment or private sector investment in excess of \$1 million in aggregate within 5 years after the implementation of the rule;

¹ A Petition to Expand the Boundaries of Grand Bay at Doral Community Development District was submitted to Miami-Dade County and is pending approval by the Miami-Dade County Commission (the "Expansion Petition"). The City of Doral adopted Resolution No.14-191, expressing its support for the Petition to Expand the Boundaries of the District. The aforesaid Petition seeks to expand the current boundaries of the District by 6.93 +/- acres.

2. Is likely to have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with person doing business in other states or domestic markets; productivity, or innovation in excess of \$1 million in the aggregate within 5 years after the implementation of the rule; or

3. Is likely to increase regulatory costs, including any transactional costs in excess of \$1 million in the aggregate within 5 years after the implementation of the rule.

(b) A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the rule.

(c) A good faith estimate of the cost to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state and local revenues.

(d) A good faith estimate of the transactional costs likely to be incurred by individuals and entities, including local governmental entities, required to comply with the requirements of the proposed ordinance. As used in this paragraph, "transactional costs" are direct costs that are readily ascertainable based upon standard business practices, and include filing fees, the cost of obtaining a license, the cost of equipment required to be installed or used or procedures required to be employed in complying with the rule, additional operating costs incurred, and the cost of monitoring and reporting.

(e) An analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined by Section 120.52, F.S. Miami-Dade County is not defined as a small County for purposes of this requirement.

(f) Any additional information that the agency determines may be useful.

(g) In the statement or revised statement, whichever applies, a description of any good faith written proposal submitted under paragraph (1) (a) and either a statement adopting the alternative or a statement of the reasons for rejecting the alternative in favor of the proposed ordinance.

2.0 Adverse impact on economic growth, business competitiveness or increased regulatory costs, in excess of \$1 million.

It is unlikely the boundary amendment will meet any of the triggers in Section 120.541(2)(a). The basis for this determination is provided in the discussions in Section 3.0 through Section 6.0.

3.0 A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the rule.

The District currently serves land that comprises a 334.48 +/- acre development. Upon approval of the Petition to contract the boundaries (and the Expansion Petition), the District's boundaries will comprise approximately 337.41 +/- acres. This boundary amendment will remove one (1) parcel of land from the District boundary which will not be used for the development of residential units and will not be a part of the residential community being developed in the District.

4.0 A good faith estimate of the cost to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state or local revenues.

4.1 Costs to Governmental Agencies of Implementing and Enforcing Ordinance

State Governmental Entities

Since the District already exists, there will be no additional ongoing costs to various State governmental entities to implement and enforce the proposed boundary amendment. Further, the District comprises less than 1,000 acres, and therefore, Miami-Dade County is the establishing entity under 190.005(2), Florida Statutes, to review and act upon the petition to contract the boundaries of the District.

There are minimal additional ongoing costs to various State entities to implement and enforce the proposed ordinance. The District is a special purpose unit of local government, and it is required to file various reports to the State of Florida, the Department of Economic Opportunity and other agencies of the State. The filing requirements are outlined in Appendix A. However, the additional costs to the State and its various department to process the additional filing from the District are very low, since the State routinely processes filings from over 500 similar districts. Finally, the filing fees paid by the District are designed to offset any additional costs to the State.

Miami-Dade County

There will be only modest costs to the County for a number of reasons. First, review of the petition to contract the boundaries of the District does not include analysis of the project itself. Second, the petition itself provides much of the information needed for a staff review. Third, the County already possesses the staff needed to conduct the review without the need for new staff. Fourth, there is no capital required to review the petition. Finally, the County routinely process similar petitions though for entirely different subjects, for land uses and zoning changes that are far more complex than is the petition to contract an existing community development district.

The annual costs to Miami-Dade County, because of the proposed contraction of the boundaries of the District, are also very small. The District is an independent unit of local government. The only annual costs the County faces are the minimal costs of receiving and reviewing the various reports that the District is required to provide to the County, or any monitoring expenses the County may incur if it establishes a monitoring

program for this District. The Petitioner has paid a fee with this submittal to offset any expenses the County may incur in the processing of this Petition.

City of Doral

The City of Doral will incur certain advertising costs associated the processing of the Petition to Contract the District Boundaries. The Petitioner will reimburse these costs to the City.

4.2 Impact on State and Local Revenues

Adoption of the proposed ordinance will have no negative impact on state or local revenues. The District is an independent unit of local government. It is designed to provide infrastructure facilities and services to serve the development project and it has its own sources of revenue. No state or local subsidies are required or expected.

In this regard it is important to note that any debt obligations incurred by the District to construct its infrastructure, or for any other reason, are not debts of the State of Florida or any other units of local government, except the District. In accordance with State law, debts of the District are strictly its own responsibility.

5.0 A good faith estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the ordinance.

Transactional costs associated with community development district (CDDs) are typically related to the financing and maintenance of infrastructure. When the petition to form the District was originally submitted and approved by the City, the petitioner estimated the design and development costs for providing capital facilities. In this case the District Board made the determination that the parcel being removed from the District will not benefit from the District's infrastructure project and there are no assessments for debt imposed on the parcels.

6.0 An analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined by Section 120.52, F.S.

There will be no impact on small businesses because of the proposed contraction of the boundaries of the District.

The development is located in the City of Doral. As of the Census date, the 2000 Census, the City has a population that is greater than 10,000 people. Therefore, the City is not defined as a "small" City according to Section 120.52, Florida Statutes, and there will accordingly be no impact on a small City because of the proposed amendment of the boundaries of the District.

6.0 Any additional useful information.

The analysis provided above is based on a straightforward application of economic theory, especially as it relates to tracking the incidence of regulatory costs and benefits.
